

# ENVIRONMENTAL POLICY

Wrexham Wire manufactures and prepares various types of steel wire, including bedding and seating wire, cold heading wire, electro-galvanised wire, polymer coated wire, hard drawn spring wire, and other technical wires. The company operates a 12-hour shift pattern and operates 24 hours per day, 7 days per week.

The company will maintain an Environmental Management System (EMS) that meets the requirements of ISO 14001:2015.

In implementing the environmental policy, the company will endeavour to:

- Operate in a manner that prevents pollution that may occur as a result of its activities;
- Ensure compliance with all relevant environmental legislation and other identified obligations such as MCERTS, as a minimum;
- Manage risks and opportunities to continually improve the environmental performance in areas of potential impacts on the environment;
- Meet the requirements of its major stakeholders and customers;

The company intends to reduce its environmental impacts through process improvements to:

- Reduce the consumption of water for process uses;
- Reduce the consumption of energy;
- Improve process waste disposal systems;
- Reduce emissions to air of hydrochloric acid through improvements in relevant plant and equipment.

The Policy statement will be reviewed, may be added to from time to time and may be supplemented in appropriate cases by further statements relating to work of particular departments or groups of employees.

This policy is communicated to all staff and is available to all interested parties.
